From the beginning of this year i wanted to use the eastern weekend for an trainings camp in some relevant terrain for the WOC. Thanks to Robert Zdráhal i succeded in organizing some days in Suchy, som 40 km from Prostějov. Together with Thea Lillehov I started early this morning from vienna, but when we arrived here there was a bad surprise waiting for us, almost 10 cm of snow in the forest and it was still snowing. Nevertheless we are ready for our first training with the hope for better conditions in the next days. Will keep you informed.
