

WOC Selection Races

Written by Klaus Schgaguler

Last weekend the Italian team had 2 selection races for WOC. Two competitions in most relevant terrain (yesterday just between WOC qualification and final maps) with a very good international starting field where used for this purpose.

I had two quite ok races, but I am making still too many mistakes in this kind of terrain. We will stay in France until next Saturday. So I have almost one week to work on this.
